

BENCHTOP PEDX SERIES GOLD AND PRECIOUS METAL ANALYZER

Introducing the Benchtop PeDX Series Gold and Precious Metal Analyzer, a versatile tool designed for accurate analysis of precious metal compositions. Ideal for jewelry quality assessment, trade-in services, and recycling, this analyzer ensures that gold, platinum, and other jewelry meet standard purity levels like 24K or 18K.

With its swift and precise assessment capabilities, it facilitates fair evaluations of old jewelry for trade-ins or recycling services. Trust the Benchtop PeDX Series for reliable results and enhanced efficiency in your precious metal operations.

4.6KG

Light and portable, specially designed for field analysis

High accuracy

Accuracy up to 0.01% (9999 gold)

Simple operation

One-click analysis, touch screen operation
