

BENCHTOP SCOPEX PILOT SERIES GOLD AND PRECIOUS METAL ANALYZER

Benchtop ScopeX PILOT Series Gold and Precious Metal Analyzer typically feature advanced detection technology and robust processing capabilities. They're well-suited for professional laboratory settings and offer robust data analysis support for identifying and analyzing precious metals across commercial, industrial, and scientific research applications!

Introducing the Benchtop ScopeX PILOT Series Gold and Precious Metal Analyzer, a cutting-edge solution revolutionizing the assessment of precious metals. This flagship analyzer, equipped with XRF technology, delivers unparalleled accuracy in determining purity and composition, featuring a precision of up to 0.01%. Its integrated design, featuring a high-precision manual X-Y axis platform, ensures flexibility and accuracy throughout the analysis process.

From jewelry factories to gold refineries, the ScopeX PILOT Series Analyzer plays a pivotal role, enabling swift and reliable assessments of incoming and recycled materials. With its ability to monitor metal components at every stage of production, it guarantees the consistency and compliance of product quality.

Moreover, compared to traditional methods, its rapid testing capabilities significantly shorten the quality control cycle, enhancing efficiency and minimizing human error. Choose the Benchtop ScopeX PILOT Series Gold and Precious Metal Analyzer for unparalleled accuracy, efficiency, and reliability in precious metal analysis.

3S

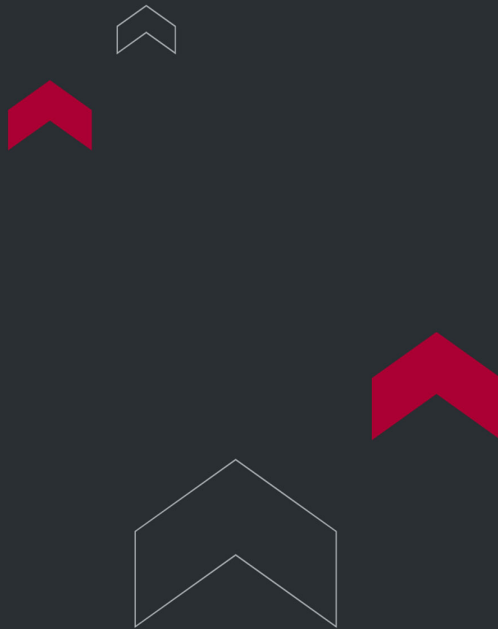

Getting results in 3s, rapid analysis of gold purity

One-click operation

User-friendly interface, clear and intuitive display

High accuracy

Accuracy up to 0.01% (9999 gold)
